

Vhi Healthcare

PITSS.CON Customer Success for Oracle FORMS

Vhi levels the screen size of its Oracle Forms Application 10g with PITSS.CON in a few days

"PITSS.CON was an excellent tool to use. We were impressed by the excellent pre-sales advice and service and the cost-effectiveness PITSS.CON offered."

Bernadette Leonard, IT Programme Manager, Vhi Healthcare

Customer profile

Vhi Healthcare is Ireland's leading Health Insurer and has provided healthcare cover for Irish consumers since 1957.

It currently has approximately 1.57 million members.

Customer: Vhi Healthcare
Industry: Health Insurance

Project:
**Resizing of Forms screen with
PITSS.CON**

Photo: Vhi Healthcare

Initial position

Vhi Healthcare provides a range of healthcare plans for its members. In recent years there has been an increased emphasis on providing cover for primary care and Vhi launched a new range of Lifestage Products that provide cover for both day to day medical expenses and hospital stays. To support this new product development strategy, a new primary care claims processing system was commissioned. After evaluating several options the decision was taken to build on the existing Oracle Forms 4.5 legacy application in order to achieve the necessary speed to market. In this context the application was migrated to 10g and as a consequence some settings e.g. the screen size had to be customized to the requirements of Vhi.

Project data

Forms Version: 4.5

No. of FORMS: 20

No. of FORMS-User: 120

Project term: 1 month
including testing

OS: Win 2003

DB: 10g R2

Challenge

After the migration the 10g Forms had to live on the same screen as other Oracle 4.5 Forms. In order to achieve this, the resolution of these Forms needed to be changed to the same screen resolution size for all applications. Doing this manually would have been very time consuming. Therefore Vhi was looking for a tool based solution to meet their needs in an efficient and quick way.

Objective

Forms screen size adaptation to one standard

Solution

After evaluating different tool based options to resize the screens of the Forms application the decision for PITSS.CON was made. With PITSS.CON the zooming took only a matter of days. Now all claims assessors can switch between applications without any difficulties.

Results

Coherent screen size for all Forms applications

Project schedule

- ✓ Thorough analysis of the whole Forms application including objects, functions and dependencies
- ✓ In-house workshop to demonstrate the complete process of zooming
- ✓ Implementation and testing

PITSS GmbH

PITSS GmbH is the leading supplier of complete IT solutions for effectively managing Oracle FORMS applications. PITSS is an Oracle Certified Advantage Partner and works on projects in Europe, USA and Asia.

CERTIFIED ADVANTAGE PARTNER

PITSS.CON

The innovative PITSS.CON software supports companies to quickly and cost-effectively analyse, migrate, develop and maintain Oracle FORMS applications.
